Education

UPES Dehradun, India

July 2022 - June 2026

Bachelors of Technology in CSE – CCVT

CGPA: 7.54/10.0

Available for internship: 1st June – 31st August 2025

Chhatrapati Shivaji Public School, India

March 2021 - May 2022

CBSE Higher Secondary

Medicaps International school, India

March 2019 - June 2020

CBSE Secondary School

Internship

Web Designer Intern

June 2024 – July 2024

PearlyHues

Remote

- Crafted an interactive prototype of their website using Figma-based interfaces, laying out the structure and design of the website.

Projects

"A Real-Time Early Warning System for Forest Fire"

03/24-03/24

- **Technologies Used** – HTML, CSS, IoT (Smoke sensors, LoRa's, Raspberry PI), Machine Learning
- Created an IoT-powered early warning system with ML and Google Maps for real-time avalanche and forest fire alerts.

"Disease Surveillance – Prediction Model"

09/24–11/24

- **Technologies Used** – C++, Network Analysis, Epidemiological Modeling
- An AI-driven predictive model was developed based on the SIR framework to monitor and predict the spread of Canine Distemper Virus in Asiatic lions.
- Network analysis with clique complexes was used to identify high-risk groups within lion populations to improve disease intervention strategies.
- The use of C++ for computational efficiency was employed, integrating epidemiological modeling techniques and real-time environmental data to make accurate predictions of outbreaks.

"Predicting Human-Animal Conflict"

01/25–Present

- **Technologies Used**– IoT, AI/ML, AWS, CI/CD, Serverless Computing
- Development of a cloud-based predictive system through IoT, AI, and ML to predict human-wildlife conflict areas.
- Application of DevOps in terms of CI/CD pipeline and serverless computing on AWS for real-time data processing and model deployment.
- Real-time integration with historical data sources like GPS tracking, weather, and terrain to improve the accuracy of the predictions and prevent conflicts in advance.

Skills

Programming languages: C++, Java, JavaScript

DevOps and Cloud: Docker, IaC, CI/CD pipelining, Amazon Web Services

Soft Skills: Communication, Leadership and Teamwork

Web Technologies: Figma, HTML, CSS,

React, Node.js, RestfulAPI's

Miscellaneous: MySQL, GitHub

Technical Certifications

- AWS Academy Graduate – AWS Academy Cloud Architecting
- AWS Academy Graduate – AWS Academy Cloud Security Foundations
- AWS Cloud Practitioner Essentials
- Applied Data Science Lab – WorldQuant University (Ongoing).
- CyberSecurity Fundamentals – IBM SkillBuild (Ongoing).

Position of Responsibility

Student Placement Representative	Present
PR Team Member, RRR, Cultural Club of UPES	2023 - 2024
• Contributed to organize four major events, showcasing teamwork and organizational skills.	

Accomplishments & Recognition

- Secured a position in top 10 finalists out of 120 national and international teams in a global Hackathon.
